Summary

An experienced leader capable of working in stressful and volatile environments, with five years of experience training and mentoring soldiers during service in the military. Strong technical skills, with the ability to learn quickly. Proficient in Java and competent in HTML, JavaScript and CSS. Experience using Maven to create plugins and modular projects. Formulated and implemented plans for the development of web applications using GWT, Maven and J2EE technologies. My passion for learning and team oriented mentality are my greatest two traits.

Technical Skills

- Java
- JDBC
- J2EE (JPA, JAX-RS, Servlet, JSP)
- Maven
- GWT (Google Web Toolkit)
- SQL

Education

B.Sc in Computer Science   2014 - 2018

University of Hartford
